EDITORIAL

Why a Journal of Hand Surgery? 1

PRESIDENTIAL ADDRESS

American Society for Surgery of the Hand 3
Adrian E. Flatt, M.D., Iowa City, Iowa

ORIGINAL COMMUNICATIONS

A classification for congenital limb malformations 8
Alfred B. Swanson, M.D., F.A.C.S., Grand Rapids, Mich.

Andreas Vesalius and the anatomy of the upper extremity 23
Robert J. Moes, M.D., Los Angeles, Calif.

Reconstructive hand surgery in tetraplegia, stroke, and cerebral palsy: Some basic concepts in physiology and neurology 29
Erik Moberg, M.D., Göteberg, Sweden

On making a thumb: One hundred years of surgical effort 35
J. William Littler, M.D., New York, N.Y.

Electrophysiological recordings in peripheral nerve surgery: A review 52
J. K. Terzis, M.D., R. W. Dykes, Ph.D., Halifax, Nova Scotia, Canada, and R. W. Hakstian, M.D., Montreal, Canada

Thrombolysis of palmar and digital arterial thrombosis by intra-arterial Thrombolysin 67
Mark M. Kartchner, M.D., and W. Curtis Wilcox, M.D., Tucson, Ariz.

PROCEEDINGS

American Society for Surgery of the Hand 75

The Israel Hand Club 82

Contents continued

The Journal of
HAND SURGERY

SEPTEMBER 1976

VOLUME 1 NUMBER 2

ORIGINAL COMMUNICATIONS

The importance of middle or long finger realignment in ulnar drift 87
Stewart H. Harrison, F.R.C.S. (Eng.), F.R.C.S., L.D.S., R.C.S. (Edin.), Windsor, England, United Kingdom

Squamous cell carcinoma of the nail bed 92
Robert E. Carroll, M.D., New York, N. Y.

Reinnervation of denervated Meissner corpuscles: A sequential histologic study in the monkey following fascicular nerve repair 98
A. Lee Dellon, M.D., Baltimore, Md.

The ligaments of the wrist 110
Julio Taleisnik, M.D., Orange, Calif.

Comparison of histologic and functional recovery after peripheral nerve repair 119
Michael E. Jabaley, M.D., Janis E. Burns, M.D., Betty S. Orcutt, B.A., and W. Michael Bryant, M.D., Jackson, Miss.

Epineurial and perineurial fascicular nerve repairs: A critical comparison 131
H. Edward Cabaud, M.D., Major, MC, USA, William G. Rodkey, D. V.M., Captain, VC, USA, H. Relton McCarroll, Jr., M.D., Sterling B. Mutz, M.D., Colonel, MC, USA, and John J. Niebauer, M.D., San Francisco, Calif.

A study of nerve regeneration and neuroma formation after nerve suture by various techniques 138
F. William Bora, Jr., M.D., David E. Pleasure, M.D., and Noubar A. Didizian, M.D., Philadelphia, Pa.

Treatment of painful neuromas of sensory nerves in the hand: A comparison of traditional and newer methods 144
Jack W. Tupper, M.D., Oakland, Calif., and Donald M. Booth, M.D., Portland, Maine

Restoration of strong grasp and lateral pinch in tetraplegia due to cervical spinal cord injury 152
James H. House, M.D., M.S., Frank W. Gwathmey, M.D., and Douglas K. Lundsgaard, M.D., Minneapolis, Minn.

Vol. 1 No. 3
November, 1976

PROCEEDINGS

The Australian Hand Club 164
J. T. Hueston, M.D.

The French and Swiss Societies for Surgery of the Hand 165
A. Narakas, M.D.

NOVEMBER 1976

VOLUME 1 NUMBER 3

ORIGINAL COMMUNICATIONS

Digital nerve grafts with the lateral antebrachial cutaneous nerve 169
Robert M. McFarlane, M.D., and John R. Mayer, M.B., B.S., London, Ontario, Canada

Rate and extent of functional recovery after flexor tendon grafting with and without silicone rod preparation 174
Paul M. Weeks, M.D., and R. Christie Wray, M.D., St. Louis, Mo.

Patterns of neuromuscular activity following tendon transfer in the upper limb: A preliminary study 181
Robert D. Leffert, M.D., and Melvin Meister, E.C., Boston, Mass.

The abducted little finger in low ulnar nerve palsy 190
G. J. Blacker, M.D., Ft. Collins, Colo., G. D. Lister, M.D., and H. E. Kleinert, M.D., Louisville, Ky.

Proximal row carpectomy with muscle transfers for spastic paralysis 197
George E. Omer, M.D., and David A. Capen, M.D., Albuquerque, N. M.

The pronator quadratus in motions and in stabilization of the radius and ulna at the distal radioulnar joint 205
Richard K. Johnson, M.D., and Marvin M. Shrewsbury, Ph.D., Stanford and San Jose, Calif.

Opera-glass hand in rheumatoid arthritis 210
Edward A. Nalebuff, M.D., Brookline, Mass., and John Garrett, M.D., Boston, Mass.

Contents continued

NOVEMBER 1976 *continued*

Volkmann's ischemic contracture due to soft tissue injury alone 221
William L. Newmeyer, M.D., and Eugene S. Kilgore, Jr., M.D., San Francisco, Calif.

The dorsal ganglion of the wrist: Its pathogenesis, gross and microscopic anatomy, and surgical treatment 228
Alexander C. Angelides, M.D., and Paul F. Wallace, M.D., Hialeah and St. Petersburg, Fla.

Digital vessel trauma from repetitive impact in baseball catchers 236
C. W. Lowrey, M.D., R. O. Chadwick, M.D., and E. N. Waltman, R.T.N.M.T., Alexandria, La.

Tourniquet ischemia: Ultrastructural and histochemical observations of ischemic human muscle and of monkey muscle and nerve 239
Chris P. Tountas, M.D., Greenville, Pa., and Ronald A. Bergman, Ph.D., Beirut, Lebanon

INDEX TO VOLUME 1

Author Index*

WILCOX, W. CURTIS. (*See* Kartchner and Wilcox), 67

WRAY, R. CHRISTIE. (*See* Weeks and Wray), 174

Subject Index*

A

American Society for Surgery of the Hand (presidential address) (Flatt), 3
(proceedings), 75

Anatomy of upper extremity, Andreas Vesalius and (Moes), 23

Andreas Vesalius and anatomy of upper extremity (Moes), 23

Antebrachial cutaneous nerve, lateral, digital nerve grafts with (McFarlane and Mayer), 169

Arterial thrombosis, palmar and digital, thrombolysis of, by intra-arterial Thrombolysin (Kartchner and Wilcox), 67

Arthritis, rheumatoid, opera-glass hand in (Nalebuff and Garrett), 210

Australian Hand Club, The (proceedings) (Hueston), 164

B

Baseball catchers, digital vessel trauma from repetitive impact in (Lowrey, Chadwick and Waltman), 236

C

Carcinoma, squamous cell, of nail bed (Carroll), 92

Carpectomy, proximal row, with muscle transfers for spastic paralysis (Omer and Capen), 197

Catchers, baseball, digital vessel trauma from repetitive impact in (Lowrey, Chadwick and Waltman), 236

Cell, squamous, carcinoma of nail bed (Carroll), 92

Cerebral palsy, tetraplegia, and stroke, reconstructive hand surgery in: some basic concepts in physiology and neurology (Moberg), 29

Cervical spinal cord injury, tetraplegia due to, restoration of strong grasp and lateral pinch in (House, Gwathmey, and Lundsgaard), 152

Club, Hand, The Australian (proceedings) (Hueston), 164
The Israel (proceedings) (Kessler), 82

Congenital limb malformations, classification for (Swanson), 8

Contracture, Volkmann's ischemic, due to soft tissue injury alone (Newmeyer and Kilgore), 221

Cord, spinal, injury, cervical, tetraplegia due to, restoration of strong grasp and lateral pinch in (House, Gwathmey, and Lundsgaard), 152

Corpuscles, denervated Meissner, reinnervation of: sequential histologic study in monkey following fascicular nerve repair (Dellon), 98

Cutaneous nerve, lateral antebrachial, digital nerve grafts with (McFarlane and Mayer), 169

D

Digital nerve grafts with lateral antebrachial cutaneous nerve (McFarlane and Mayer), 169
palmar and, arterial thrombosis, thrombolysis of, by intra-arterial Thrombolysin (Kartchner and Wilcox), 67
vessel trauma from repetitive impact in baseball catchers (Lowrey, Chadwick, and Waltman), 236

Distal radioulnar joint, pronator quadratus in motions and in stabilization of radius and ulna at (Johnson and Shrewsbury), 205

Dorsal ganglion of wrist: its pathogenesis, gross and microscopic anatomy, and surgical treatment (Angelides and Wallace), 228

Drift, ulnar, importance of middle or long finger realignment in (Harrison), 87

E

Electrophysiological recordings in peripheral nerve surgery: review (Terzis, Dykes, and Hakstian), 52

Epineurial and perineurial fascicular nerve repairs: critical comparison (Cabaud et al.), 131

Extremity, upper, anatomy of, Andreas Vesalius and (Moes), 23

F

Fascicular nerve repair(s), epineurial and perineurial: critical comparison (Cabaud et al.), 131
sequential histologic study in monkey following: reinnervation of denervated Meissner corpuscles (Dellon), 98

*July, pp. 1-86; September, pp. 87-168; November, pp. 169-250.

Finger, little, abducted, in low ulnar palsy (Blacker, Lister, and Kleinert), 190
middle or long, realignment in ulnar drift, importance of (Harrison), 87
Flexor tendon grafting with and without silicone rod preparation, rate and extent of functional recovery after (Weeks and Wray), 174
French and Swiss Societies for Surgery of the Hand, The (proceedings) (Narakas), 165

G

Ganglion, dorsal, of wrist: its pathogenesis, gross and microscopic anatomy, and surgical treatment (Angelides and Wallace), 228
Grafting, flexor tendon, with and without silicone rod preparation, rate and extent of functional recovery after (Weeks and Wray), 174
Grafts, digital nerve, with lateral antebrachial cutaneous nerve (McFarlane and Mayer), 169
Grasp, strong, and lateral pinch, restoration of, in tetraplegia due to cervical spinal cord injury (House, Gwathmey, and Lundsgaard), 152

H

Hand, American Society for Surgery of the (presidential address) (Flatt), 3
(proceedings), 75
Club, The Australian (proceedings) (Hueston), 164
The Israel (proceedings) (Kessler), 82
surgery, journal of, why (editorial) (Boyes), 1
The French and Swiss Societies for Surgery of the (proceedings) (Narakas), 165
treatment of painful neuromas of sensory nerves in: comparison of traditional and newer methods (Tupper and Booth), 144

I

Intra-arterial Thrombolysin, thrombolysis of palmar and digital arterial thrombosis by (Kartchner and Wilcox), 67
Ischemic contracture, Volkmann's, due to soft tissue injury alone (Newmeyer and Kilgore), 221
Israel Hand Club, The (proceedings) (Kessler), 82

J

Joint, distal radioulnar, pronator quadratus in motions and in stabilization of radius and ulna at (Johnson and Shrewsbury), 205
Journal of hand surgery, why (editorial) (Boyes), 1

L

Lateral antebrachial cutaneous nerve, digital nerve grafts with (McFarlane and Mayer), 169
pinch, strong grasp and, restoration of, in tetraplegia due to cervical spinal cord injury (House, Gwathmey, and Lundsgaard), 152
Ligaments of wrist (Taleisnik), 110
Limb malformations, congenital, classification for (Swanson), 8
upper, patterns of neuromuscular activity following tendon transfer in: preliminary study (Leffert and Meister), 181
Little finger, abducted, in low ulnar palsy (Blacker, Lister, and Kleinert), 190
Long, middle or, finger realignment in ulnar drift, importance of (Harrison), 87
Low ulnar palsy, abducted little finger in (Blacker, Lister, and Kleinert), 190

M

Malformations, congenital limb, classification for (Swanson), 8
Meissner corpuscles, denervated, reinnervation of: sequential histologic study in monkey following fascicular nerve repair (Dellon), 98
Middle or long finger realignment in ulnar drift, importance of (Harrison), 87
sequential histologic study in, following fascicular nerve repair: reinnervation of denervated Meissner corpuscles (Dellon), 98
and nerve, monkey, ischemic human muscle and, ultrastructural and histochemical observations of: tourniquet ischemia (Tountas and Bergman), 239
transfers for spastic paralysis, proximal row carpectomy with (Omer and Capen), 197

N

Nail bed, squamous cell carcinoma of (Carroll), 92
Nerve(s), fascicular, repair(s), epineurial and perineurial: critical comparison (Cabaud et al.), 131
sequential histologic study in monkey following: reinnervation of denervated Meissner corpuscles (Dellon), 98
grafts, digital, with lateral antebrachial cutaneous nerve (McFarlane and Mayer), 169
lateral antebrachial cutaneous, digital nerve grafts with (McFarlane and Mayer), 169
peripheral, repair, comparison of histologic and functional recovery after (Jabaley et al.), 119
surgery, electrophysiological recordings in: review (Terzis, Dykes, and Hakstian), 52
regeneration and neuroma formation after nerve suture by various techniques, study of (Bora, Pleasure, and Didizian), 138
sensory, in hand, treatment of painful neuromas of: comparison of traditional and newer methods (Tupper and Booth), 144
suture by various techniques, study of nerve regeneration and neuroma formation after (Bora, Pleasure, and Didizian), 138
Neurology, physiology and, some basic concepts in: reconstructive hand surgery in tetraplegia, stroke, and cerebral palsy (Moberg), 29
Neuroma(s) formation, nerve regeneration and, after nerve suture by various techniques, study of (Bora, Pleasure, and Didizian), 138
painful, of sensory nerves in hand, treatment of: comparison of traditional and newer methods (Tupper and Booth), 144
Neuromuscular activity, patterns of, following tendon transfer in upper limb: preliminary study (Leffert and Meister), 181

O

Opera-glass hand in rheumatoid arthritis (Nalebuff and Garrett), 210

P

Palmar and digital arterial thrombosis, thrombolysis of, by intra-arterial Thrombolysin (Kartchner and Wilcox), 67
Palsy, low ulnar, abducted little finger in (Blacker, Lister, and Kleinert), 190
Paralysis, spastic, proximal row carpectomy with muscle transfers for (Omer and Capen), 197
Perineurial, epineurial and, fascicular nerve repairs: critical comparison (Cabaud et al.), 131
Peripheral nerve repair, comparison of histologic and functional recovery after (Jabaley et al.), 119
surgery, electrophysiological recordings in: review (Terzis, Dykes, and Hakstian), 52
Physiology and neurology, some basic concepts in: reconstructive hand surgery in tetraplegia, stroke, and cerebral palsy (Moberg), 29

Pinch, lateral, strong grasp and, restoration of, in tetraplegia due to cervical spinal cord injury (House, Gwathmey, and Lundsgaard), 152
Pronator quadratus in motions and in stabilization of radius and ulna at distal radioulnar joint (Johnson and Shrewsbury), 205
Proximal row carpectomy with muscle transfers for spastic paralysis (Omer and Capen), 197

Q

Quadratus, pronator, in motions and in stabilization of radius and ulna at distal radioulnar joint (Johnson and Shrewsbury), 205

R

Radioulnar joint, distal, pronator quadratus in motions and in stabilization of radius and ulna at (Johnson and Shrewsbury), 205
Radius and ulna, pronator quadratus in motions and in stabilization of, at distal radioulnar joint (Johnson and Shrewsbury), 205
Reconstructive hand surgery in tetraplegia, stroke, and cerebral palsy: some basic concepts in physiology and neurology (Moberg), 29
Regeneration, nerve, and neuroma formation after nerve suture by various techniques, study of (Bora, Pleasure, and Didizian), 138
Rheumatoid arthritis, opera-glass hand in (Nalebuff and Garrett), 210
Rod, silicone, preparation, rate and extent of functional recovery after flexor tendon grafting with and without (Weeks and Wray), 174
Row, proximal, carpectomy with muscle transfers for spastic paralysis (Omer and Capen), 197

S

Sensory nerves in hand, treatment of painful neuromas of: comparison of traditional and newer methods (Tupper and Booth), 144
Silicone rod preparation, rate and extent of functional recovery after flexor tendon grafting with and without (Weeks and Wray), 174
Society(ies), American, for Surgery of the Hand (presidential address) (Flatt), 3
(proceedings), 75
for Surgery of the Hand, The French and Swiss (proceedings) (Narakas), 165
Soft tissue injury alone, Volkmann's ischemic contracture due to (Newmeyer and Kilgore), 221
Spastic paralysis, proximal row carpectomy with muscle transfers for (Omer and Capen), 197
Spinal cord injury, cervical, tetraplegia due to, restoration of strong grasp and lateral pinch in (House, Gwathmey, and Lundsgaard), 152
Squamous cell carcinoma of nail bed (Carroll), 92
Stroke, tetraplegia, and cerebral palsy, reconstructive hand surgery in: some basic concepts in physiology and neurology (Moberg), 29
Surgery, hand, why journal of (editorial) (Boyes), 1
of the Hand, American Society for (presidential address) (Flatt), 3
(proceedings), 75
The French and Swiss Societies for (proceedings) (Narakas), 165
Suture, nerve, by various techniques, study of nerve regeneration and nerve formation after (Bora, Pleasure, and Didizian), 138
Swiss, The French and, Societies for Surgery of the Hand (proceedings) (Narakas), 165

T

Tendon, flexor, grafting with and without silicone rod preparation, rate and extent of functional recovery after (Weeks and Wray), 174
transfer in upper limb, patterns of neuromuscular activity following: preliminary study (Leffert and Meister), 181
Tetraplegia due to cervical spinal cord injury, restoration of strong grasp and lateral pinch in (House, Gwathmey, and Lundsgaard), 152
stroke, and cerebral palsy, reconstructive hand surgery in: some basic concepts in physiology and neurology (Moberg), 29
Thrombolysin, intra-arterial, thrombolysis of palmar and digital arterial thrombosis by (Kartchner and Wilcox), 67
Thrombolysis of palmar and digital arterial thrombosis by intra-arterial Thrombolysin, (Kartchner and Wilcox), 67
Thrombosis, palmar and digital arterial, thrombolysis of, by intra-arterial Thrombolysin (Kartchner and Wilcox), 67
Thumb, on making: one hundred years of surgical effort (Littler), 35
Tissue, soft, injury alone, Volkmann's ischemic contracture due to (Newmeyer and Kilgore), 221

U

Ulna, radius and, pronator quadratus in motions and in stabilization of, at distal radioulnar joint (Johnson and Shrewsbury), 205
Ulnar drift, importance of middle or long finger realignment in (Harrison), 87
palsy, low, abducted little finger in (Blacker, Lister, and Kleinert), 190
Upper extremity, anatomy of, Andreas Vesalius and (Moes), 23
limb, patterns of neuromuscular activity following tendon transfer in: preliminary study (Leffert and Meister), 181

V

Vesalius, Andreas, and anatomy of upper extremity (Moes), 23
Vessel, digital, trauma, from repetitive impact in baseball catchers (Lowrey, Chadwick, and Waltman), 236
Volkmann's ischemic contracture due to soft tissue injury alone (Newmeyer and Kilgore), 221

W

Wrist, dorsal ganglion of: its pathogenesis, gross and microscopic anatomy, and surgical treatment (Angelides and Wallace), 228
ligaments of (Taleisnik), 110
